

Build your practical ability in Agile and Change

A short course and certification designed to build practical ability in agile and change to support effective transformation and change initiatives.

Based on the popular publication:
“Agile Change Management: A practical framework for successful change planning and implementation.”

- Offers pioneering tools to ensure change initiatives are embedded, adopted and deliver benefits throughout the organization.
- Enables the creating of an effective roadmap to manage any type of change initiative in an Agile way.
- Designed for both large-scale transformation and micro-level business change projects.
- Create change that is lean and flexible, realizing benefits earlier in the process.

WHY?

Existing courses/qualifications designed for those responsible for managing projects & change initiatives

Agile Change Agent widens the field

Addresses increasing demand for those within organizations to understand Agile working and its role in successfully implemented and adopting change

Assists individuals in participating in Agile or change, without the expertise or need to lead

Provides an entry into the worlds of Agile and change for those involved & impacted, but whose day job continues to be 'business-as-usual' role

What's in the course?

Divided into 4 parts, reflecting chapters in the publication

Concept and Roadmap

Business Need

Relationship Building

Environment

Available via APMG accredited training organizations (ATOs).

Benefits & learning outcomes

- Become an agile for change in an Agile environment!
- Understand how agile approaches impact the way change is managed and delivered, and the impact on those involved in and affected by change.
- Learn how an agile approach impacts your role and interaction with those driving and leading change.
- Benefit from pioneering tools to ensure change initiatives are embedded, adopted and deliver benefits throughout their organizations.
- Learn how to create a roadmap consisting of all processes, activities and information needed to manage change initiatives in an Agile way.
- Focus is on learning **HOW** to do things, not just **WHAT** you need to know.

Pass the multiple-choice exam and claim your digital badge. Share your success!
